

# *Intrepid Camera*

## **SURPRISE!!!**

There is no workshop coordinator!!

But that should not stop the intrepidness! Please talk between yourselves and decide on missions for Intrepid Cameras here at Governors Island. They can be as simple (cam on bike, string, rollers...) or as complicated (moon landing?) as you wish.

At the end, send the videos to: [lenara@verle.com](mailto:lenara@verle.com) so we can post them on the web. Send your field report too (text, photos, behind the scenes documentation, rants, whatever you feel like)

(another surprise: two other Intrepid Camera groups are meeting this weekend in Germany and Brazil, so you're not alone! Share the intrepidness!)

Yours truly,  
The Intrepid Camera Team
